

# SERPİL YILDIRIM

Muhasebe ve Finansman Müdürü

## Hakkımda

I am a Financial Advisor(CPA) with more than fifteen years of experience, a master's degree in accounting and auditing, a two-year education abroad (Ireland), a SMMM/CPA license, open to self-development and passionately practicing my profession. I have gained experience in many areas such as laws, cost control principles, book analysis, financial statements, financial reports, budgeting, taxation, payroll, KPI, management and supervision of accounting and finance team, establishment and development of accounting systems. I worked as a manager in three companies I last worked for, and now I work as a manager in an international company. Between 2017-2019 I lived in Ireland to improve my English and gain experience abroad. In addition to studying English in Ireland, I took 100 hours of accounting education to learn different countries accounting-finance systems. Now, I want to use all my experience and talents to both add value to the company I will work for and take my career to a further point

## İş Deneyimi
