

ALPER TANRISEVER

Grafik Tasarımcısı

Hakkımda

I graduated from Çukurova University, Department of Visual Arts Teaching. I stepped into the 3D Modeling and Visualization sector in 2013 and worked in this sector for 10 years. I had full-time and freelance work experiences in various Architecture offices. My interest in 3D visuals in games, which started in my childhood, has increased thanks to the development of the game industry in Turkey. Because of my experience in the 3D industry and being a Visual Arts Teacher, I believe that I can make a difference in this industry, and I am improving myself in making 3D models for games.
