

# GÖKŞENAY ÖZDEMİR

Mimar

## Hakkımda

I am an interior designer with extensive experience in residential and commercial projects, from concept development to construction management. As the founder of Monades Architecture, I specialize in creating bespoke spaces that blend functionality with innovative design. Throughout my career, I have contributed to high-profile projects such as Art'otel London Hoxton, JW Marriott Hotel Bosphorus, and Six Senses Kocatas Mansion. My technical proficiency in AutoCAD, SketchUp, Revit, 3ds Max, and Corona Renderer allows me to bring creative visions to life with precision. I am passionate about crafting spaces that exceed client expectations, combining my knowledge of space planning, lighting design, and material selection with a detail-oriented approach. Let's connect to collaborate on inspiring design projects!
