SAMET ÇEVIK

Bilgisayar Mühendisi

Hakkımda

I graduated from Kocaeli University, Department of Computer Engineering. Focused on my career As a back-end developer, you can work on projects such as Java, object-oriented programming (OOP), Spring Boot and Hibernate. I have experience in the fields. Always understand the importance of teamwork in software development processes. I am someone who emphasizes. To continue to improve myself and contribute in the field of back-end development I am looking for new opportunities that I can provide.
