SÜMEYE RANA ÜZEL

Bilgisayar Mühendisi

Hakkımda

Hello! I'm Sümeye Rana Üzel, a computer engineering graduate with a strong interest in mobile application development and artificial intelligence. Throughout my academic journey, I have gained hands-on experience by participating in various projects and internships, working with technologies such as React Native, Flutter, and OpenCV. I developed a mobile game focused on car model recognition, designing user-friendly, cross-platform applications. During my internships at LN Bilgisayar and BOTAŞ, I contributed to server room monitoring systems and mobile form optimization projects. These experiences allowed me to enhance my technical skills in Flutter, Python, C#, MongoDB, and Arduino. Beyond technology, I enjoy writing blog articles about psychology, philosophy, and artificial intelligence. My goal is to advance in the field of Data Science, engaging in academic research and contributing to sustainable and impactful projects.

İş Deneyimi

- **Botaş**
  01.07.2024 - 29.07.2024
- **LN Bilgisayar Danışmanlık**
  05.08.2024 - 02.09.2024

Eğitim

- **Balıkesir Üniversitesi** - Lisans
  (27.09.2020 - 20.02.2024)

Seminerler & Sertifikalar

- Ağ Temelleri - 8/2024
- Git Github - 11/2024
- C# Algoritma ve Programlama - 11/2024
- Python 101 - 11/2024
- Python 201 - 11/2024
- Python 301 - 12/2024
- Python 401 - 12/2024
- Veri Bilimi ve Yapay Zeka - 11/2024
- Makine Öğrenmesi - 12/2024
- Yapay Zeka Zirvesi - 12/2024
- Veri Bilimi için İstatistik - 12/2024
- Veri Bilimi için Lineer Cebir - 12/2024
